

But suddenly a fire breaks out anyway...

How to act?

- Stay calm.
- Alert any other people in your building.
- Keep doors and windows closed and close doors behind you.
- If there is smoke, stay close to the floor.
- Leave the building by the shortest route.
- Go to the agreed place to meet and check that everyone has left the building.
- **Call 112** and give them your name and your full address.
- Wait for the fire service and report any special circumstances.

And remember:

You're on your own until the fire service has arrived.

So make sure you know what to do in case of a fire.
